You don’t need Hermione Granger’s Time-Turner to relive the magic of Harry Potter! The Library System is hosting the National Institutes of Health’s (NIH) touring exhibit “Harry Potter’s World: Renaissance Science, Magic, and Medicine,” along with a month-long schedule of events for Muggles of all ages.

For kids, take a break from your grueling Hogwarts studies and enjoy story times, crafts, movie screenings, games, trivia, and owls galore!

For teens, glam your nails during “Nail Transfiguration,” challenge your fellow wizards in “Defense Against the Dark Arts” and “Harry Potter and Excalibur” contests, and learn about the creative endeavors behind various fandoms during “When Harry Met Katniss: Fan Fiction and Fandoms.”

For adults, be amazed by these continuing education classes from the Hogwarts School of Witchcraft and Wizardry: “The Alchemy of the Everyday: Book Arts and the Magic of the Imagination!” featuring John Cutrone, director of The Jaffee Center for Book Arts at Florida Atlantic University; “Introduction to Ghost Hunting” with the Gold Coast Paranormal Society; and “Herb Gardening for Muggles and Other Novices” with the Palm Beach County Extension Service.

Special screenings of all the movies will also be held at the Wellington Branch and at other library locations throughout July.

Refer to the listings inside this publication for dates, times, and registration information for these programs and more.

The exhibit, curated by Elizabeth J. Bland of the NIH, features beautifully-rendered and informative panels detailing the world of Harry Potter, with its roots in Renaissance science, medicine, history, and culture. This exhibition is sponsored by the National Library of Medicine, with support by the Friends of the Library. It was developed and produced by the National Library of Medicine, National Institutes of Health.
