In every culture and time period, the family has stood as the most fundamental human institution. Family is the starting point of life, the sustainer of well-being, and the school of love. The most powerful of human bonds is the parent-child relationship.

Parents’ Day provides an opportunity to recognize and promote parenting as a pillar for our families and communities. It is an opportunity to honor and promote the vital role of parenting in the development of children.

National Parents’ Day was established in 1994 by President Bill Clinton as a day for “recognizing, uplifting, and supporting the role of parents in the rearing of children.” Parents’ Day is perennially celebrated on the fourth Sunday of every July. This year, National Parents’ Day will be Jul 28. The Palm Beach County Library System will celebrate Parents’ Day from Jul 22-29, with parenting programs at all library branches.

Stop by or call the location of your choice to preregister for these programs.
