SCHOOL IS STARTING!
GET HOMEWORK HELP WITH THE MAGIC OF YOUR LIBRARY CARD

Do you ever wish you had your own tutor to consult when you come up against a difficult math homework problem or need help with a writing assignment for English class? Your wish has been granted! Every day students in Palm Beach County are connecting to an expert tutor online at Live Homework Help with the magic of their library cards.

How do they do this? After logging onto the PBCLS website (www.pbclibrary.org), from home or the library, students click on Live Homework Help in the drop-down menu below the Research and Homework icon on the main page. That takes them directly to the tutoring service. They receive the one-to-one help they need to perform better in school and find the information they need to do their homework in English, Social Studies, Math and Science. Many of the tutors are teachers, professors, graduate students, and engineers. The Live Homework Help service (Tutor.com) conducts a thorough background check before hiring the tutors and reviews them to make sure they are helping students to understand their homework. Students are invited to make comments on their tutoring sessions and Palm Beach County students have responded enthusiastically to the service.

“The help I received today will help me get a better grade on my test.”
6th grade student

“This site is a lifesaver. I’m so glad it’s available for students.”
