Each May, Americans recognize Mental Health Month with events and activities in communities across the country. This year, the Library, through the Consumer Health Information Service (CHIS) will be honoring and supporting U.S. military personnel by recognizing Post Traumatic Stress Disorder (PTSD).

According to the U.S. Department of Veterans Affairs National Center for PTSD, PTSD can occur after a person has been through a traumatic event. A traumatic event is something terrible and scary that they see, hear about, or that happens to them, like combat exposure, child sexual or physical abuse, terrorist attack, sexual or physical assault, serious accidents like a car wreck, or natural disasters like a fire, tornado, hurricane, flood or earthquake. During a traumatic event, a person thinks that their life or others’ lives are in danger. They may feel afraid or feel out-of-control over what is happening around them. Most people have some stress-related reactions after a traumatic event, but not everyone gets PTSD.

Almost all service members will have reactions after returning from a war zone. Most service members will successfully readjust with few major problems. The reality is that injuries, including psychological injuries, affect the strong and the brave just like everyone else. Some of the most successful officers and enlisted personnel have experienced these problems.

Please join us and learn about PTSD during the month of May as we host educational programming presented by professionals from the West Palm Beach Veterans Administration Medical Center. Call today to register:

- May 14, 2-3pm, Kenneth E. Dempsey, RN, RRT, Veterans Mental Health Re-engagement Coordinator, Lt. Col USAF (Ret) of the West Palm Beach Veteran’s Administration Medical Center. Hagen Ranch Road Branch (561) 894-7500
- May 15, 2-3pm, Jerry Troyer, LCSW, Mental Health Program Coordinator and Vietnam Veteran of the West Palm Beach Veteran’s Administration Medical Center. Gardens Branch (561) 626-6133
- May 28, 2-3pm, Rita Clark, LCSW Suicide Prevention Coordinator, from the West Palm Beach Veteran’s Administration Medical Center and a close family member of veterans who served in Korea, Vietnam and Iraq/Afghanistan. Main Library (561) 233-2600

Library branch locations will also have book displays for May is Mental Health Month that will include a bibliography of mental health titles in our collection, along with literature from the Boynton Beach Mental Health Initiative (including NAMI and MHA). Visit your local branch to learn more about PTSD and other mental health issues.

The Library’s CHIS has more health information to read and discuss with your doctor. If you would like to learn more about health and medical resources or have other health-related questions, please contact a specially credentialed consumer health librarian at 233-2736. Please also visit CHIS at the Main Library or on the web at www.pbclibrary.org/consumer-health.

All Palm Beach County Library System locations will be closed on Mon, May 26, for Memorial Day. No materials will be due on that day.
