From the Director

Welcome to the new Happenings Magazine. In December, we created a prototype of the magazine and got feedback from the public, staff, the Friends of the Library, the Library Advisory Board and County Administration. Based on the feedback, we made some changes which include using a more environmentally friendly paper stock. Simultaneously, we made adjustments in our publicity by creating fewer flyers and making fewer copies. We believe these changes allow us to produce a quality publication while still being financially and environmentally responsible.

The timing of the magazine’s release couldn’t be better as we embark on our Summer Reading Program. As you browse the issue, you will see that our Libraries Rock! During the summer our Libraries are full of energy and excitement. I encourage everyone from children to senior citizens to participate in the Summer Reading Program. Reading is an important part of summer as it helps our children retain the knowledge gained during the school year. It is also an opportunity for adults to catch up on the books they have been wanting to read. We have many activities lined up for the summer including musical performances, magic acts, STEAM classes, and more. Visit a branch today to sign up and get started. Earn points by attending activities, reading or listening to books and music, watching movies and meeting new people. You can also use this opportunity to learn about the many online resources that are available from magazines, comic books, streaming music, language learning and career assistance.

We look forward to having you join us as we open minds to a world of unlimited possibilities.
