All you need is your library card.

To get started, visit your library website or ask your librarian for more information.
As we move through the spring, the Library has planned new and exciting experiences for the whole family to enjoy as you visit one of our 17 locations and the Bookmobile.

Our in-person activities are back in full swing and many locations are once again offering movies. The in-person activities listing begins on page 24 and you can see that branches will be hosting more activities for our younger members ages 5 and up. It is our goal to bring regular storytimes back this summer. There are also in-person activities to help you improve your computer skills. Many new classes have been added to the technology curriculum. If you have not had an opportunity to attend a class since the pandemic, I encourage you to return. Whether you are into creating videos or learning to code, there is a class for you. On pages 21-23, you can see a full listing of our offerings.

Our County has residents from a wide range of cultural backgrounds which we love to celebrate. This month we celebrate Asian American and Pacific Islander Heritage Month. These activities are marked with the 🌟 icon. May is also Haitian Heritage Month; in-person; online activities are listed on page 10.

With the increase in cyberattacks and email scams, it is more important than ever to practice online safety. On pages 8 and 9, you will find 10 tips to help you stay protected. We are also offering activities online (page 14) and in-person (page 23) to help you protect yourself and your family from falling victim to these schemes.

Of course, many people look forward to May to celebrate Mother’s Day. There are many activities that celebrate mothers and other motherly figures in our lives. On the fourth day of the month, “Star Wars” fans proclaim May the 4th Be With You. On page 12 is a mash-up article that celebrates the mothers from the “Star Wars” saga. Seek you must to find “Star Wars” activities to enjoy.

The Library System recently added 22 new magazine titles to Flipster, which allows you to view many popular magazines right on your computer or mobile device. All titles are full-page, full-color duplicates of the print titles and are available the same day the paper copies hit the newsstands. Back issues for each title are also available. Every issue is available instantly with no holds or waiting lists, and there are no limits on the number of titles that can be read online or downloaded to the mobile app. See page 2 to see some of this month’s offerings.

As a lifetime member of the Friends of the Library, I would also like to take this opportunity to encourage you to become a member of the Friends of the Library. This 501(c)3 provides financial support to the Library to bring quality activities and classes that would otherwise not be possible. A membership form is available on page 36. You can also assist the Friends with donations of gently-used materials for resale and of course by purchasing donated items at any of our locations.

I want to thank you for your continued support of the Library and our mission to connect communities, inspire thought and enrich lives.

Sincerely,

Douglas Crane, Library Director

The Start of Asian American and Pacific Islander Heritage Month

In 1978, a joint congressional resolution established Asian/Pacific American Heritage Week. The first 10 days of May were chosen to coincide with two important milestones in Asian/Pacific American history: the arrival in the United States of the first Japanese immigrants (May 7, 1843) and contributions of Chinese workers to the building of the transcontinental railroad (completed May 10, 1869.) In 1992, Congress expanded the observance to a monthlong celebration that is now known as Asian American and Pacific Islander Heritage Month.

Fun Facts:
Transparent Language Online provides a fun, effective and engaging experience for learners of all levels looking to build their listening, speaking, reading and writing skills in a foreign language.

Combining courses, supplemental vocabulary and grammar resources, Transparent Language Online is the most complete language-learning system. With more than 110 languages to choose from, including English for speakers of over 30 languages, there is something for every learner!

Also included in Transparent Language Online is KidSpeak™, a fun, child-friendly online language course designed for ages 6 and up. The best time to start learning a new language is as early as possible. The program teaches words and phrases suitable for learners’ needs and interests. There are more than 40 puzzles, activities and songs located throughout the courses which guide young learners through the basics. Currently, KidSpeak™ is available for those wanting to learn Spanish, French, English, Italian and Mandarin Chinese.

We will be having two activities this month related to this database: “Travel Talk With Transparent Language” which is online on Wed, May 25, 2:00 pm and “Transparent Language Online” at Hagen Ranch Road Branch on Thu, May 26, 3:00 pm. You can register for both activities on our website, www.pbclibrary.org.

To access Transparent Language Online, visit our website www.pbclibrary.org/research and search for Transparent Language Online.

Writers LIVE!, our flagship author event series, returns for another season of bringing the community together with authors and their books. The 2022 line-up of bestselling, critically-acclaimed and award-winning authors will be discussing their work in a combination of in-person and virtual events.

Visit www.pbclibrary.org/writers-live-2022 for the most-up-to-date schedule, event details and event registration. Seating at in-person events is limited. Preregistration is strongly suggested.

Internet Safety Tips For All Ages

Making sure you are safe while browsing the internet is very important. Unsafe internet browsing habits can lead to unwanted results. To help, we have compiled a list of 10 tips everyone should know to stay safe on the internet. This month, we are hosting many activities that go in-depth on how to protect yourself online. Read through the tips to find the activities and be sure to register for them on our website.

1. Don’t share your personal information.

Never share your full name, home address, date of birth, social security or your phone number. To learn more, register for “Beware: Internet Danger!” at West Boynton Branch on Wed, May 18, 3:30 pm.

2. Use strong passwords and never share them.

Strong passwords include a combination of upper and lower case letters, numbers and symbols. They should be at least 12 characters in length; the longer the password, the better. Avoid using common words, phrases and personal information like a family member’s name or phone number. Use 2-factor (or even 3-factor) authentication to add extra layers of security with your logins and a password manager to safely keep track of your many passwords. To learn more, register for “Staying Safe Online: Passwords & Password Managers” at the Main Library on Tue, May 10, 4:00 pm and “Password Protection & Password Managers” on Thu, May 26, 2:00 pm.
3. **Beware of strangers.**
Only allow people you know in real life to interact with you online. People you meet online may not be who they claim to be and they may not even be real. Keep in mind that photos can easily be altered to look real. Be as careful in your online social life as you are in person. To learn more, register for “Internet Safety for Parents, Guardians & Communities” on Wed, May 11, 6:00 pm and “Being a Good Digital Citizen: Online Safety for Children” at the Wellington Branch on Tue, May 17, 2:15 pm.

4. **Watch out for phishing and scams.**
A malicious email may look like it is coming from a financial institution, a government agency or a reputable business. These emails typically ask you to act quickly to confirm your order or warn that your account was compromised. Do not click on the URL in the email; instead, visit the official company site. Avoid clicking on pop-up ads claiming you have won a prize or money. To learn more, register for “Staying Safe Online” at the West Boynton Branch on Thu, May 05, 2:00 pm and at the West Boca Branch on Wed, May 11, 2:00 pm.

5. **Be careful what you post.**
Many times we want to share life’s milestones like getting a driver’s license or finally getting to go on vacation. This information could be used by identity thieves and burglars. Personal and inappropriate photos can attract online predators and can affect future educational and employment opportunities. Even if deleted, the content may stay online forever. To learn more, register for “Social Media Safety” at Greenacres Branch on Thu, May 12, 4:00 pm. To help children learn about online safety, the Wellington Branch is hosting “NetSmartz: Into the Cloud” on Tue, May 24, 2:15 pm.

6. **Only shop from secure sites.**
One of the best ways to shop safely is to make sure the site is running on HTTPS which means the site has a security certificate that safeguards your personal information by encrypting your data.

7. **Use privacy settings.**
Web browsers, social media sites and mobile operating systems have settings to help protect you, but it is your responsibility to adjust the settings. If the settings are turned off, your browsing information may be shared with marketers or intercepted by hackers. To learn more, register for “Staying Safe Online: Internet Privacy & Security” at the Main Library on Tue, May 03, 4:00 pm and “Internet Privacy” at the Glades Road Branch on Mon, May 09, 2:00 pm.

8. **Practice safe browsing.**
There are websites that can lure you in and then with one click your computer is infected with malware. To learn more, register for “Web Browser Privacy & Security” on Tue, May 17 at 2:00 pm and “Internet Searching & Browsing” on Wed, May 25, 2:00 pm.

9. **Make sure your internet connection is secure.**
Make sure your home Wi-Fi system has a hard-to-crack password. When using public Wi-Fi, consider using a Virtual Private Network (VPN) which creates a safer secure connection from anywhere. Avoid managing sensitive information like financial, medical or other personal information if you are using public Wi-Fi without a VPN.

10. **Backup data regularly.**
Ransomware is used by cybercriminals to lock your computer so you can’t access your files. Backing up your files regularly can allow you to restore your information. To learn more, register for “What You Need to Know about Ransomware” on Thu, May 19, 3:00 pm and “Cybersecurity” at the Lantana Road Branch on Fri, May 27, 10:00 am.

To register for these activities, visit [www.pbclibrary.org/internet-danger-month](http://www.pbclibrary.org/internet-danger-month).
HAITIAN HERITAGE MONTH

The Palm Beach County Library System is proud to honor Haitian culture, literature, history and language during Haitian Heritage Month in May, a month that incorporates the important holiday of Haitian Flag Day on May 18. Visit the newly-renovated Lantana Road Branch and enjoy their Haitian Cultural Collection. This collection highlights Haiti’s history and culture and includes adult and juvenile books in Haitian Creole, French and English.

We thank the Friends of the Library for their generosity and support of this celebration since 2010! We invite you to enjoy events offered in-person and online through Zoom.

Celebrating Mothers in a Galaxy Far, Far Away
By Marisa Montesino

Mother’s Day and May the 4th ("Star Wars" Day) are two big celebrations in May that I love to celebrate. So combining the two only seems logical! There are many stories written about mothers in the world of “Star Wars”, some now only reside in the Legends, but many are gracing current books and screens today, all of which can be found at your local library.

First up is Shmi Skywalker, the mother to Anakin aka Darth Vader. She was a single mom, a slave and raising a wild child on the desert world of Tatooine. Shmi did everything she could to make sure Anakin would be able to be free and get off the world and find a better life, even if it was with the Jedi.

Padme Amidala, secret wife of Anakin and mother of Luke and Leia, is our next mother. Queen, senator and consort to the people of Naboo, she was a high-ranking diplomat trying to bring justice for people around the galaxy. Her life as a mother was not very long, but she will always be remembered.

The next two mothers were surrogates, but mothers nonetheless. Breha Organa of Alderaan and Beru Lars on Tatooine took Leia and Luke to hide them from Darth Vader. Breha Organa raised Leia as her own, never telling her she was adopted, to protect her. She learned how to be a diplomat and senator and was regarded as a princess to her people. Luke Skywalker was raised by his aunt, Beru Lars, wife of Shmi Skywalker’s stepson Owen Lars. They lived with Luke on a moisture farm on Tatooine far from the ideas of Jedi and leaving the planet for as long as possible before fate moves him forward.

Hera Syndulla is a Twi’lek resistance fighter famous for her help during the early rebellion. She and Jedi Kanan Jarrus had fallen for each other during the fight and from their love came Jacen, a Twi’lek Human hybrid. Kanan had sacrificed himself during a battle to save his crew. This left Hera to give birth to and raise Jacen without him, but not alone. She has her crew to help her.

Leia Skywalker Organa married Han Solo and together had Ben Solo. Leia, even after winning the fight on Endor, was still working hard as a diplomat and senator to help keep peace in the galaxy, along with raising her son and eventually becoming a general of a new resistance. This resistance was against the rising First Order where her son had gone to after he fell to the darkside while at the Jedi Academy. Her life was full and constant, and she believed that there was still good in her son and in the galaxy and that was worth fighting for.

There are so many more mothers in the galaxy we could talk about like Norra Wexley, Iden Versio, Ursa Wren, and Venisa Doza. But there’s just not enough time. All in all, mothers in “Star Wars” had to be some combination of strong, powerful, fierce or stubborn to make it through all that the galaxy or even their own families threw at them. So, to the mothers of children who wish to be future Jedi, starship pilots, Mandalorians, senators, officers and generals, may the force be with you, you’ll need it.
WHAT’S NEXT?
